HOW IS YOUR MARRIAGE 401K DOING?

HERE'S WHAT COUPLES TELL US ABOUT THE MARRIAGE INVESTMENT WORKSHOP

"I would recommend this to friends. Thank you!"

"I enjoyed how each team presented their 'journey' and insight.

"Thanks for a great day – great content."

"Presenters did a great job expressing themselves and communicating."

"Good presentations from all of the teams."

"Love the overall format and time frame. Would look forward to more of these."

"The inventories were helpful and insightful. They really inspired dialogue between us."

It makes sense to regularly check on your investments.

After all, your future depends on it.

Maybe you check every week....or every day...or even more often than that.

To stay on top of the situation, you get all the information you can.

You read. You watch and listen. You attend investment workshops.

What about the investment you've made in each other?

How often do the two of you discuss the return you're getting?

How often do you look at your marriage to see how it's weathering uncertain times?

It's time to manage your marriage investment the way you manage your other investments.

After all, your future depends on it.

Presented by the St. Hubert's Marriage Enrichment Team
