

Calling All CSI Agents Entering Grade 2!

Have you ever wondered how detectives and CSI agents gather information to solve a problem? Now you have your chance! This summer, you get to be the agent! Group sessions will culminate reading, math and science in hands-on CSI activities that will give you an opportunity to determine who committed the crime!

Please detach the bottom portion and return it with your payment to ensure your spot as an agent this summer! I look forward to investigating with you!

Tuesday, June 22: Help Tommy Tompkins find out who stole the costume of Soup Man and use ink identification while solving the crime!

Tuesday, June 29: Detective Carmen Chang needs your help to fix the mixed-up lawns and complete soil testing to determine the thief!

Tuesday, July 6: Detective Chuck McBuck needs your help to look at cloth fibers and find out who turned the swimming pool into lemonade!

Tuesday, July 13: Detective Gina Jasper needs your help to dust for fingerprints and find the order of robberies that occurred!

Tuesday, July 20: Detective Carmen Chang needs your measuring skills to determine the size of the quickly-growing suspect using bone length!

Name: _____

Current Homeroom Teacher _____
